

**OUR LEADERSHIP DEVELOPMENT MODEL  
CONNECTS LIKE NO OTHER**

Our model of (re) discover, (re) connect, (re) ignite meets you where you are to deliver services aimed at meeting today’s business challenges. Unlike other leadership development and culture transformation initiatives, we’re vested in your long-term success. Results come from a focus on why and how you do what you do, creating engagement for sustained action.

**Consider this:**

- 70% of workers are disengaged, costing US businesses an estimated \$450 – \$550 billion dollars annually. – **Gallup, 2013**
- 58% of students (undergrad and MBA) state they are willing to accept 15% less pay to work for a company with shared values. - **Net Impact 2012**
- Our brains are consumed by 60,000-80,000 messages and thoughts per day. - **Chopra Center**

***The fast paced global economy begs for more connection.  
Not only is it good for your people, it's good for your business.***
